PREPOSITIONS FROM F.Sc BOOK-II

SELF-ASSESSMENT TEST-1

Directions: In each question in the following, four alternative sentences are given. Choose the CORRECT one and fill the circle corresponding to that letter in the answer sheet.

Q. 1
A) Such is the littleness of our home when measured up for the total universe.
B) Such is the littleness of our home when measured up against the total universe.
C) Such is the littleness of our home when measured up to the total universe.
D) Such is the littleness of our home when measured up with the total universe.

Q. 2
A) These millions of stars are wandering about in space.
B) These millions of stars are wandering around in space.
C) These millions of stars are wandering against in space.
D) These millions of stars are wandering across in space.

Q. 3
A) A few form groups which journey with company, but most stars travel alone.
B) A few form groups which journey for company, but most stars travel alone.
C) A few form groups which journey in company, but most stars travel alone.
D) A few form groups which journey from company, but most stars travel alone.

Q. 4
A) The stars travel across an immense universe.
B) The stars travel in an immense universe.
C) The stars travel with an immense universe.
D) The stars travel through an immense universe.

Q. 5
A) It is a very rare event for one star to come anywhere near to another.
B) It is a very rare event for one star to come anywhere near another.
C) It is a very rare event for one star to come anywhere near with another.
D) It is a very rare event for one star to come anywhere near for another.

Q. 6
A) Each star makes its voyage in complete loneliness, like a ship in an empty ocean.
B) Each star makes its voyage in complete loneliness, like a ship on an empty ocean.
C) Each star makes its voyage in complete loneliness, like a ship into an empty ocean.
D) Each star makes its voyage in complete loneliness, like a ship over an empty ocean.

Q. 7
A) The sun and moon raise tides in the earth.
B) The sun and moon raise tides over the earth.
C) The sun and moon raise tides on the earth.
D) The sun and moon raise tides into the earth.

Q. 8
A) They would be different from the tides which the moon raises in our oceans.
B) They would be different from the tides which the moon raises on our oceans.
C) They would be different from the tides which the moon raises into our oceans.
D) They would be different than the tides which the moon raises in our oceans.

Q. 9

A) An immense tidal wave must have travelled in the surface of the sun.
B) An immense tidal wave must have travelled with the surface of the sun.
C) An immense tidal wave must have travelled against the surface of the sun.
D) An immense tidal wave must have travelled over the surface of the sun.

Q. 10

A) These small pieces have been going to the sun ever since.
B) These small pieces have been going round the sun ever since.
C) These small pieces have been going for the sun ever since.
D) These small pieces have been going over the sun ever since.

Q. 11

A) They are the planets, great and small, from which our earth is one.
B) They are the planets, great and small, in which our earth is one.
C) They are the planets, great and small, by which our earth is one.
D) They are the planets, great and small, of which our earth is one.

Q. 12

A) The sun and the other stars we see on the sky are all extremely hot.
B) The sun and the other stars we see at the sky are all extremely hot.
C) The sun and the other stars we see over the sky are all extremely hot.
D) The sun and the other stars we see in the sky are all extremely hot.

Q. 13

A) These pieces of the sun were extremely hot when they were first thrown off.
B) These pieces of the sun were extremely hot when they were first thrown of.
C) These pieces of the sun were extremely hot when they were first thrown to.
D) These pieces of the sun were extremely hot when they were first thrown from.

Q. 14

A) With course of time one of these cooling pieces gave birth to life.
B) From course of time one of these cooling pieces gave birth to life.
C) In course of time one of these cooling pieces gave birth to life.
D) By course of time one of these cooling pieces gave birth to life.

Q. 15

A) Life started with simple organisms which could reproduce themselves before dying.
B) Life started from simple organisms which could reproduce themselves before dying.
C) Life started in simple organisms which could reproduce themselves before dying.
D) Life started by simple organisms which could reproduce themselves before dying.

Q. 16

A) The most important is the temperature on which substances can exist in a liquid state.
B) The most important is the temperature in which substances can exist in a liquid state.
C) The most important is the temperature from which substances can exist in a liquid state.
D) The most important is the temperature at which substances can exist in a liquid state.

Q. 17

A) We may think of the stars as a collection of fires scattered through space.
B) We may think of the stars as a collection of fires scattered from space.
C) We may think of the stars as a collection of fires scattered on space.
D) We may think of the stars as a collection of fires scattered over space.

Q. 18
A) In the immense stretches of space from the Milky Way, it is colder still.
B) In the immense stretches of space beyond the Milky Way, it is colder still.
C) In the immense stretches of space in the Milky Way, it is colder still.
D) In the immense stretches of space through the Milky Way, it is colder still.

Q. 19
A) Life can exist in a narrow belt surrounding each of these fires on a certain distance.
B) Life can exist in a narrow belt surrounding each of these fires at a certain distance.
C) Life can exist in a narrow belt surrounding each of these fires with a certain distance.
D) Life can exist in a narrow belt surrounding each of these fires by a certain distance.

Q. 20
A) We have benefited greatly in the use of scientific method in solving problems.
B) We have benefited greatly for the use of scientific method in solving problems.
C) We have benefited greatly from the use of scientific method in solving problems.
D) We have benefited greatly by the use of scientific method in solving problems.

Q. 21
A) Although there is need for improvement, we are less fearful than our ancestors.
B) Although there is need of improvement, we are less fearful than our ancestors.
C) Although there is need in improvement, we are less fearful than our ancestors.
D) Although there is need against improvement, we are less fearful than our ancestors.

Q. 22
A) We are also more critical with our thinking than our ancestors.
B) We are also more critical from our thinking than our ancestors.
C) We are also more critical of our thinking than our ancestors.
D) We are also more critical in our thinking than our ancestors.

Q. 23
A) Young people are treated to protect them for smallpox, diphtheria, and typhoid fever.
B) Young people are treated to protect them against smallpox, diphtheria, and typhoid fever.
C) Young people are treated to protect them through smallpox, diphtheria, and typhoid fever.
D) Young people are treated to protect them in smallpox, diphtheria, and typhoid fever.

Q. 24
A) More than thirty years have been added in the expected length of man's life.
B) More than thirty years have been added with the expected length of man's life.
C) More than thirty years have been added for the expected length of man's life.
D) More than thirty years have been added to the expected length of man's life.

Q. 25
A) Outdoor toilets were common, many of them situated where wastes drained into wells.
B) Outdoor toilets were common, many of them situated where wastes drained in wells.
C) Outdoor toilets were common, many of them situated where wastes drained through wells.
D) Outdoor toilets were common, many of them situated where wastes drained out of wells.

Q. 26

A) It is above the law to throw garbage in the streets.
B) It is beyond the law to throw garbage in the streets.
C) It is against the law to throw garbage in the streets.
D) It is by the law to throw garbage in the streets.

Q. 27

A) Sewage from all sections of a city is carried through sealed pipes to disposal plants.
B) Sewage from all sections of a city is carried in sealed pipes to disposal plants.
C) Sewage from all sections of a city is carried in sealed pipes from disposal plants.
D) Sewage from all sections of a city is carried from sealed pipes to disposal plants.

Q. 28

A) A century ago it was common practice to bring water by the bucketful.
B) A century ago it was common practice to bring water in the bucketful.
C) A century ago it was common practice to bring water from the bucketful.
D) A century ago it was common practice to bring water into the bucketful.

Q. 29

A) A thousand million litres of water are delivered in the district daily.
B) A thousand million litres of water are delivered into the district daily.
C) A thousand million litres of water are delivered for the district daily.
D) A thousand million litres of water are delivered to the district daily.

Q. 30

A) This is a remarkable advance from the bucket system of supplying homes for water.
B) This is a remarkable advance from the bucket system of supplying homes of water.
C) This is a remarkable advance from the bucket system of supplying homes with water.
D) This is a remarkable advance from the bucket system of supplying homes by water.
